AMAR KANT YADAV

Cybersecurity Enthusiast · Vulnerability Assessment · Threat Detection · Linux Security · SOC Operations

CONTACT +91 89536 93993 | princeamarkant9@gmail.com | Ghaziabad, Uttar Pradesh

EDUCATION

Bachelor of Technology (B.Tech.), Computer Science — HRIT University | 2025–2029

EXPERIENCE

Unified Mentor Private Limited — Cyber Security Intern | Jan–Mar 2026 · Remote

• Worked on cybersecurity projects simulating enterprise attack-and-defense scenarios. Conducted Linux privilege-escalation assessments covering SUID binaries, weak file permissions, and cron-job misconfigurations. Contributed to SentinelShield, an intrusion-detection and web-protection system with network traffic monitoring, anomaly detection, and real-time security alerts. Recognized as a Top Performing Intern and awarded a ■5,000 performance-based stipend.

Cyber Shield Center — Co-Tech Lead | Dec 2025–Present · Ghaziabad

• Lead a student cybersecurity club focused on defensive/offensive security learning, CTFs, and campus awareness. Mentor members in Linux, networking, Python, Wireshark, Kali Linux, and security tooling; coordinate workshops and hands-on labs.

PROJECTS

VULNEX — Automated Vulnerability Assessment Platform

• Team Lead, Team VORTEX; Top 10 project at Technova Hackathon 2026. Python-based platform with Nmap host discovery/service detection, vulnerability identification, risk scoring, automated PDF reporting, and an interactive Streamlit dashboard.

PDF Malware Analysis Toolkit

• Extracts embedded PDF objects, detects suspicious JavaScript and potentially malicious content, and generates structured forensic reports.

Secure File Transfer Monitoring System

• Monitors file creation, modification, deletion, and movement; uses SHA-256 integrity checks, event correlation, persistent logging, and a Streamlit dashboard.

SKILLS & CERTIFICATIONS

Security: VAPT, threat hunting, malware analysis, incident response, application/network security, threat intelligence, digital forensics. **Tools:** Kali Linux, Wireshark, Nmap, Burp Suite, Metasploit, Splunk, Hydra. **Programming:** Python, Bash, C, C++. **Networking:** TCP/IP, DNS, HTTP/HTTPS, socket programming. **OS:** Linux, Windows.

Certifications: ISC² Certified in Cybersecurity (CC); Blue Team Junior Analyst (BTJA); Certified Cybersecurity Educator Professional (CCEP).

ACHIEVEMENTS & LANGUAGES

• Top 10 Project — Technova Hackathon 2026. • TryHackMe Top 8%. • Top Performing Intern — Unified Mentor Private Limited. • Languages: English, Hindi.
